ACTION TAKEN REPORT

Student Feedback 2017-2018

| Stakeholder | | Students |
|------------------|---|---|
| No: of responses | | 935 |
| S.NO | SUGGESTIONS | ACTION TAKEN |
| 1. | Sessions can be administered to give a space for students to interact with experts. | To make the syllabus more relevant, teachers and institute planned and organised more seminars/conferences/workshops to provide more opportunities for interactive sessions with experts |
| 2. | More practical learning platforms can be given for involving the students in learning. | It was seen that students are more concerned about practical learning and so to help teachers deliver their lecture by giving more live examples, case studies to connect the topic with the current national and international events. |
| 3. | Frequent internal assessments can be carried out in the forms of assignments for the better judging of the students. | It was decided and implemented to give assignments, class tests and presentations slots to students so that they can be judged fairly on internal evaluation parameters. |
| 4. | Book bank can be started to support the learning of the students without much financial burden. | Students have the option to avail the book bank facility from the library for each and every semester so that they can have appropriate books to revise and read the concepts. |
| 5. | Institute can organize workshops, industrial visits and conferences to increase the effectiveness of the teaching learning process. | To increase the teaching learning experience workshops, industrial visits and conferences were arranged from time to time by the institute. |
| 6. | Sports fest and intercollegiate competitions can be organized to encourage the extracurricular flair of the students. | To enhance Extracurricular activities and sports, Institute every year organize Sports fest for students along with different inter college competitions on various parameters. |
